

1-day BINA/BIPASS meeting “Evaluation and future prospects of BINA”

(10/10/2023)

A one-day BINA workshop on “Evaluation and future prospects of BINA” was organized at the ROB (Brussels, Belgium) on 10/10/2023. This meeting was attended by 33 in-person and about 50 online participants from India, Belgium and other countries. The achievements of BINA were evaluated during 13 invited talks (each introducing an ongoing project that was initiated thanks to BINA) followed by an open discussion about possibilities for a long-term continuation of the Indo-Belgian collaboration (search for money for joint workshops, work visits, PhD students, post-docs; creation of BINA website; start a series of BINA seminars). It was explicitly acknowledged during the open discussion by Laurent Ghys (BELSPO) that a lot has been achieved with a small amount of money.
