

Work visit of a Belgian colleague to India

(19/03/2023-13/04/2023)

[Mathieu Vander Donckt](#) (ULiège, Belgium; see picture) went to India to participate in the 3rd BINA workshop (contributed talk) and to visit [Shashikiran Ganesh](#) (PRL, India). They started a collaboration to study comets for which it is beneficial to combine observations from the Mount Abu InfraRed Observatory (Mount Abu, Rajasthan, India) and the Belgian 0.6-m TRAPPIST-South (La Silla, Chile) and 0.6-m TRAPPIST-North (Oukaimeden, Morocco) telescopes. The first results were presented (contributed talk) during the *Asteroids, Comets, Meteors Conference* in Flagstaff (Arizona, USA) in June 2023 [[Vander Donckt et al., 2023, "The Carbon-Chain Depletion of Recently Observed Jupiter Family Comets from Photometry and Spectroscopy", Asteroids, Comets, Meteors Conference, held 18-23 June, 2023 in Flagstaff, Arizona/Virtual. LPI Contribution 2851, 2461](#)].
